# Introduction

The Crown Land Allocation Register is produced by the Crown Land Unit, a department of the Ministry of Environment and District Administration, Turks and Caicos Islands. The register sets out some basic information, already in the public domain, in relation to Crown land that has been allocated by way of grant or lease to private individuals or corporations.

There is a single record in the register for each time a person or corporation obtained a lease or grant of Crown land. Parcels transferred to multiple owners will therefore have an entry for each owner in relation to the same parcel. Someone who obtained a lease and then purchased their freehold may have two entries, one for the lease and one for the grant (or transfer) of Crown land. Further information regarding individual parcels may be obtained from the Land Registry upon completion of an application form and payment of fee.

The Crown Land Allocation Register is a working document and will be updated as circumstances dictate. It is important to realise that, due to poor standards of record keeping in the past, many Crown land allocations may not be included in the current version of this register. As resource and opportunity allows, other historical allocation records will be added to try to form as complete a record as possible. New allocations will also be added as they arise.

Everyone is encouraged to help with this process. If your name, or the name of your company, has been included in error in this register then, in the first instance, please let the Crown Land Unit know in writing in order that the error may be corrected.

Similarly, if you have not been included in the register but have been the recipient of Crown land, or if there is an error in the spelling of your name, please inform the Crown Land Unit in writing at the addresses shown below:

Grand Turk

Turks and Caicos Islands

or

**Crown Land Unit**

Palmco Building

Leeward Highway

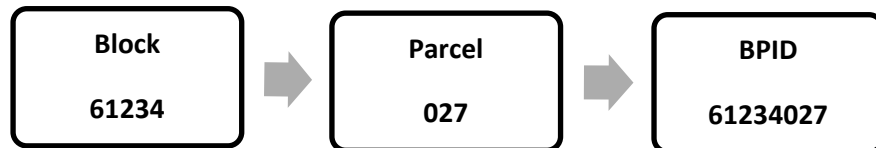

Providenciales

Turks and Caicos Islands

## Explanatory notes

**General** – the Crown Land Allocation Register does not show the current proprietor of any particular land parcel. That information can be obtained from the Land Registry by completing an application form and paying the associated fee. The Crown Land Allocation Register only shows how a particular parcel of land was leased or granted to a private individual or corporation from the Crown.

**BPID** – this is the **B**lock **P**arcel **I**Dentifier. The first five digits are the Block in which the parcel is located and the last three digits correspond to the parcel number in a three figure format. For example in the example graphic below, the Block number is 61234 and parcel number 27 is shown as “027”. When combined they form the BPID 61234027.

**Area** – parcel areas are in acres shown to 2 decimal places.

**Crown grant** - Crown grant is the freehold transfer from the Crown to the first private owner.

**Crown lease** – this is a lease of Crown land and may include Conditional Purchase Lease and other commercial long leases. At the point of the grant of the lease, the Crown is still the freehold owner.

**Date** – this is the date of legal registration of the grant or lease of Crown land and not the actual instrument date.

## **Edition record**

**4 June 2010** – 1<sup>st</sup> Edition released using data from current owners registered in the Land Registry.

## New additions and corrections to the register

All the new additions are currently shown in this first edition. In future editions, new additions and corrections will be shown in this section and also incorporated in the main register.
